

I TESTED EVERY ONE

The Vegan *Egg Wash* Guide

The best glossy, golden finish — no eggs, tested on gluten-free bakes.

The *best*

★ **Maple + Olive Oil 1:1** My go-to — best browning and shine.

Oil / Vegan butter Shiniest of all; a touch less browning.

Maple syrup On its own or with milk — nice browning, a little duller.

Just *okay*

Soy milk Surprisingly dark, but dull.

Milk + oil Light browning, barely any shine.

Aquafaba + maple The only aquafaba that browned — still light.
